How Animals Find and Catch Food

1-LS1-1: Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external body parts to help them survive, grow, and meet their needs.

LS1.A: Structure and Function: all organisms have external parts. Different animals use their body parts in different ways to see, hear, grasp objects, protect themselves, move from place to place, and seek, find, and take in food, water, and air.

LS1.D: Information Processing: Animals all have body parts that capture and convey different kinds information needed for growth and survival. Animals respond to these inputs with behaviors that help them survive
